We take this opportunity to thank you for your cooperation and support. If you have any queries regarding our services or you would like to discuss your requirements with one of our team members, please do not hesitate to contact us. We look forward to hearing from you.

MX5 Wrist Type Blood Pressure Monitor

▶ Measurement Method	Oscillometric
▶ Measurement Range	Pressure: 0 ~ 300 mmHg Pulse: 40 ~ 199 beats/minute
▶ Accuracy	Pressure : ± 3 mm Hg Pulse: ± 5% Max
▶ Inflation	Automatic inflation (Air pump)
▶ Deflation	Automatic Air release Control Valve
▶ Display	liquid Crystal Display
▶ Memory	120 memory Total of 3 Users
▶ Cuff size	135 ~ 195 mm (5.3 ~ 7.7 inch)
▶ Power Supply	1.2 AAA LR03(1.5V) Alkaline batteries
▶ Storage /Transportation	Temperature : -250C ~ 700C (-130F ~ 1580F)
▶ Environment	Humidity ≤ 93% RH
▶ Operation Environment	Temperature : 50C ~ 400C (410F ~ 1040F) Humidity ≤ 15% ~ 93% RH
▶ Battery Life	Approx.250 measurement
▶ Power -Saving Mode	Without any operation for 1 Minute , device automatically shuts off
▶ Accessories	2 AAA LR03 Alkaline batteries , Instruction Manual , Storage case

- **Irregular heartbeat detector**
- **WHO risk category indicator**
- **3 Users, 120 Total Memory**
- **Average of Last 3 Measurements**

REF MD049

Istacare Paraffin Gauze **Swab**

- ▶ Non-medicated, paraffin-impregnated disposable sterile gauze pads.
- ▶ Ideal for use with antiseptic or other topical agents.
- ▶ Soft, medical grade paraffin soothes and protects the wound.
- ▶ It has low adhesion, low adherent quality which makes it extremely comfortable to use on deep abrasions and open wounds.
- ▶ Open weave base fabric allows the wound to drain freely into an absorbent secondary dressing.
- ▶ It is a non-shedding, non-absorbent dressing and its semi transparency makes the observation of the wound site very easy.
- ▶ The gauze has interlocking threads which minimize fraying when the dressing is cut to shape.
- ▶ Paraffin gauze is suitable for use in the first aid management of minor burns & superficial wounds.

- ▶ Size: 5 x 5cm, 7.5 x 7.5cm, 10 x 10cm... etc.

REF MD050

Istacare Triangular Gauze Bandage

- ▶ A triangular bandage can be folded in the shape of a rectangle. It can be placed over a large wound to absorb blood and stop bleeding, functioning as a trauma pad.
- ▶ For a sprained wrist or ankle, It can be used to wrap the injured joint like an Ace bandage. It should not be wrapped so tightly that it affects circulation.
- ▶ If a person has an arm injury, it can be supported in a bent position by using a triangular bandage as a sling. A second triangular bandage can be folded to create a long band that can be used as a swathe around the torso to immobilize the arm and hold it against the chest.

▶ Size: 36" x 36" x 51".. etc.

REF MD034

Istacare Emergency Blanket

- ▶ An emergency blanket also known as a Mylar blanket, first aid blanket, safety blanket, thermal blanket, weather blanket or heat sheet.
- ▶ Sometimes referred to as a first aid blanket, space blanket, Mylar, thermal or weather blanket, is used in emergencies to reduce heat loss in a person's body caused by thermal radiation, water evaporation and convection. Many people think, since they have never needed one, that it's a waste of space to put one in their pack, but this is a multi-use item that can serve so many more functions than it was designed for. When spending time outdoors I prefer to bring multi-use items to save space and weight. An emergency blanket has tons of uses.

▶ Size: 210cm x 160cm
▶ Color: Silver & Gold

REF MD040

Istacare Disposable Instant Ice bag

- ▶ An instant cold pack is a device that consist of two bags; one containing water, inside a bag containing ammonium nitrate, calcium ammonium nitrate or urea. when the inner bag of water is broken by squeezing the package, it is allowed to dissolve the solid in an endothermic reaction. This reaction absorbs heat from the surroundings, quickly lowering the pack's temperature.
- ▶ Instant cold packs are a convenient direct replacement for crushed ice used as first aid on sport injuries, and can be carried as first aid to remote or wilderness areas where ice is unavailable.

REF MD039

Istacare Sport Tape

REF MD061

- ▶ Athletic taping is the process of applying tape directly to the skin in order to maintain a stable position of bones and muscles during athletic activity. It is a procedure that uses tape, attached to the skin, to physically keep in place muscles or bones at a certain position. This reduces pain and aids recovery. Taping is usually used to help recover from overuse and other injuries.

- ▶ Size: 5cm x 10y, 7.5cm x 10y... etc.
color: White, Green, Red, Yellow & Blue.

Istacare Adhesive Cloth Tape

REF MD062

- ▶ This porous elastic adhesive bandage is made from a high-quality extensible cloth, providing firm and controlled compression and strong support. The reliable adhesive keeps the bandage firmly adhered even throughout lengthy treatment. The yellow central line on the product permits accurate overlap during application.

- ▶ Size: 5cm x 4.5m, 7.5cm x 4.5m... etc.
